Get Ready for the 34th ASAT (27th October)

We're thrilled to announce that the 34th ASAT (Australian Scholastic Assessment Test) schedule has been finalised and it will take place on Sunday, 27th October 2024. This highly demanding assessment event is designed to help Year 5 students prepare for the upcoming 2025 Selective High School Placement Test, offering valuable insights into their strengths, weaknesses, and standing among thousands of their peers. Here's what you can expect from ASAT:

Immerse your child in a simulated selective exam experience:

ASAT replicates the actual selective exam setting, including the test format (computer-based tests) and timetable, allowing your child to practice managing the test time effectively under pressure. This familiarises your child with the exam day atmosphere, reducing anxiety and improving focus.

Tackle realistic selective exam-style questions:

ASAT questions replicate the complexity and cognitive demands of the actual selective school exams, providing a realistic measure of your child's preparedness. The tests feature diverse question styles and difficulty levels, and are aligned with the latest selective school exam, ensuring your child practices relevant and up-to-date material.

Receive In-depth outcome reports providing actionable insights:

The reports provide individualised analysis of your child's performance, highlighting strengths and weaknesses in specific subject areas and question types. You'll receive the comprehensive outcome reports, showing how your child's performance measures up against other students, offering practical suggestions for selective school choices.
